AquaFlow Twin

Unvented twin coil water cylinder

Install the Aquaflow Twin with a Zenith solar thermal system and a system or open vent boiler to benefit from solar thermal energy.

Inner tank guaranteed for 25 years, made from stainless steel.⁽¹⁾

2 year warranty on ancillary components.⁽¹⁾

Cylinder manufactured from high grade corrosion resistant stainless steel.

Easy and quick to install.

Balanced cold water supply point.

Secondary return facility on all units as standard.

No need for 'sacrificial anode' due to excellent anti-corrosion properties.

No cold water feed tanks required means a dry roof space.

Twin coil units supplied with one two port motorised valve.

Twin coil units are supplied with one low level immersion heater factory fitted and hard wired complete with surface mounted thermostat.

Twin coil cylinders have two thermostats, upper for boiler heating and lower for Solar pre-heater.

Cylinders are supplied with all mandatory valves and fittings.

⁽¹⁾Subject to registration.
